

EDISON AMBEROLA PHONOGRAPH

The Amberola is the newest member of the Edison Phonograph family. It is a work of art both in appearance and in performance.

Another new feature is that the record, in addition to revolving, also advances to meet the reproducer, which remains stationary. This feature makes it possible to have a rigid horn. In other Edison Phonographs the reproducer moves across the face of the revolving record and to get the best results a swinging horn is necessary.

In the Amberola the horn is turned back and then downward under the mechanism, the music coming out through the lattice-covered opening in the front of the cabinet. The Amberola is always ready for use. Place a record on the mandrel and start the motor. No other motions are needed. The Amberola has a newly designed

The Amberola is a greatly improved Phonograph. Its horn and mechanism are enclosed in a handsome cabinet, which also includes drawers for holding 100 records.

motor of much greater power than that in any other Phonograph. It will play five Amberol Records with one winding. It also has an automatic stop and a combination starting lever and reproducer lift.

The Amberola will play both Standard (two-minute) and Amberola (four-minute) Records. The new reproducer makes it easy to change from

one to the other. This change is made without removing the reproducer from the arm.

The Amberola will be wanted by every owner of any other kind of Edison Phonographs and by those who have delayed getting a Phonograph because they objected to the exposed horn.

Simultaneously with the introduc-

tion of the Amberola, there has been put out a series of Grand Opera Amberol Records made by such famous stars as Leo Slezak, Riccardo Martin, Florencio Constantino, Blanche Arrol, Adelina Agostinelli and others. Ask for a catalogue of Edison Grand Opera Records and get some of them to play on your Amberola.

It is a pleasure to see so many visitors and strangers in the Sunday services. They are most cordially welcome. Travelers, tourists, mem-

bers of the army and navy are invited to make Central Union their church home while in the city.

PROBABLY FATAL SHOOTING AT EWA

During the course of a row on Ewa plantation yesterday, a Filipino named Fermen Cantalanaman was shot through the intestines, and is at present in the plantation hospital. Cantalanaman, together with Marcus Sorbrimesana and Antonio Quebrado, and other Filipinos, were mixed up in a row between Filipino and Japanese laborers, and during the trouble a gun was fired and the former injured. It is believed that Marcus actually did the shooting, but the police investigation, which is still proceeding, has not yet reached a stage where a direct charge can be made. Chief Detective McDuffie was out at the plantation making inquiries yesterday, and this morning he again went out, taking with him a Filipino and a Japanese interpreter. The injured man is not expected to recover.

DR. BRINCKERHOFF'S DEATH.

The first cables received here about the death of Dr. Brinckerhoff left it uncertain whether he died in New York or Boston. It is now supposed, however, as the funeral was to have been held in Boston today and the interment is fixed for Peekskill, New York, on Monday, that the Doctor died in the Massachusetts city. The latest information in hand is in the form of a private cablegram to George P. Castle.

SUNDAY AT HALEIWA.

Haleiwa holds the palm for enjoyment. The guests who stopped there Sunday when the rain was coming down in buckets full in town, had the time of their visit to the islands. It would have been more delightful if the sky had not been overcast but even so there were other things which made up for what was lacking in the sky. There was everything to delight their eye and the stomach at this popular hotel. The management is never at a loss to provide entertainment and the visitors are always ready to follow his lead.

ON KAMEHAMEHA FIELD.

The preliminary field events which were decided at the Kamehameha School yesterday resulted in fair distances being made. W. Kamalopili won the broad jump with 18 feet and

the shot-put with 39 feet 11 inches; he was also second in the 220 hurdles and third in the pole vault. H. Brandt won the high jump, covering five feet three inches; was second in the broad jump and also second in the shot-put. J. Kauhi won the pole vault with a height of 8 feet 5 inches. W. Wai-leanle won the 220 hurdles and was third in the high jump. J. Kalanbulala was second in the high jump and D. Hipa was second in the pole vault.

The team to represent Kamehameha against Oahu College will be selected during the week. This meet will take place on Saturday next, and on the Saturday following that the triangular meet will be pulled off.

More
Money
For
You

Greater productiveness of trees—larger, cleaner, and finer fruit—more money. Isn't that fruit growers' reasoning? Nothing will contribute to this end more than effective spraying. And Effective Spraying can best be attained with

Bean Magic Spray Pumps

Effective spraying means High Pressure Spraying and till the advent of the Bean Magic a high pressure could not be maintained with a hand pump for any length of time, on account of the body-racking effort needed to operate it. The Bean patent spring divides the work between the two strokes of the handle and works against only one-half the pressure shown on the gauge and saves exactly one-third the labor.

We have these pumps in stock and will be pleased to show them. We cannot recommend them too strongly.

FUNERAL OF L. A. ANDREWS.

Mrs. L. A. Andrews arrived on the steamer Mauna Kea from Hilo this morning, bringing the remains of her late husband. Funeral services were held in Hilo, which were largely attended. The remains have been cremated, and the interment will be in

the Mission Cemetery in the rear of Kawaiaha Church at 4:30 tomorrow afternoon. Rev. H. H. Parker will officiate at the services to be held at the cemetery. Friends are invited to attend.

Shelled Peanuts Something NEW

Roasted Shelled Peanuts in Little
Fancy Cartons.

5c Packets

Have you seen them? Have you
tasted them?

Well, Just Try a Packet.

Shelled by machinery, roasted in our Co. Roaster, and packed in cartons and never touched by hand. Sealed. Something new in Honolulu. Just as you get them on the mainland. Do you know that the people of the United States consume annually 26,000,000 bushels of Peanuts? That Virginia alone produces them to the value of \$10,000,000? Well, it's a fact. Everybody eats them. Now get busy. Your boys and girls will eat them, and why not get the best—those you know are clean? Instruct them to ask for Shelled Peanuts in Cartons. 5 cents. They will be on sale everywhere. At present at C. J. Day's, J. M. Levy's, The Chambers Drug Co., at the moving picture shows. Ask your grocer for them. Eat them.
